

TE: Review Game Directions

Players

Two teams with 5 players compete. Each team numbers their players 1-5.

How to Play

(This game resembles the Family Feud TV game show.)

1. One member of each team faces each other in a face-off as the teacher reads a question. This is a simple question the teacher can make up regarding the class, the school, a movie, etc. Usually the first question is read to players 1 from each team.
2. The team that buzzed in with the correct answer receives control of the board and has the option of playing or passing control to the other team.
3. The first question is read by the teacher.
4. The team member that correctly answers the question, gains control of the first board question.
5. The overhead board is displayed. Question number 1 starts the game. Cover the answers with pieces of paper, popsicle sticks or pens.
6. Each member (1-5) of the team then tries to supply answers to the question in the hopes that they are found on the board.
 - If they are, points are added to the team's score.
 - If not, the other team gets control. The other team tries to supply the answers to the question in the hopes that they are found on the board.
7. Points are collected as each team finds their answers to the question on the board.
8. Once a team has found all the answers to the question on the board, the next team members (now players #2) begin the next board question by answering another simple question posed by the teacher.
9. The team member that correctly answers the question, gains control of the 2nd board question.
10. The overhead board to question #2 is displayed. Directions repeat from #6-9 above.
11. The game continues as each team tries to collect the most points. The team with the most points wins the game!
